5/16/77

Dear Howard,

Since receiving your help I have obtained more than 15,000 pages of formerly secret government political records. I have made some available to others and I have outlined a book I hope to begin writing soon.

The information I have obtained has also helped me respond to inquiries from those who write for the daily press,

When I can hope to complete a draft of the book will depend on the time required by obtaining, examing and annotating the records I am obtaining. I hope it will be no more than about two months.

There is no publisher contract.

But there will be a book.

Thanks and best,
